ABDULLAH KASHIF

ACCA Finalist (9 Exemptions Granted)

Mobile: **+92 331 0265268 / +92 321 7786802** | Email: kashifabdullah607@gmail.com| LinkedIn: https://www.linkedin.com/in/abdullahkashif/

Education:

Bachelor of Accountancy, Management and Law
Institute of Business Management (IoBM) | 2022 – 2026

Association of Chartered Certified Accountants (ACCA)
Finalist (9 Exemptions Granted)

Academic Experience:

Financial Performance & Valuation Analysis: Nestlé Pakistan Limited

Term Report | Principles of Business Finance

- **Financial Analysis:** Evaluated Nestlé's financial statements (2022–2024), performing vertical, horizontal, and ratio analyses to assess efficiency and leverage against benchmark years.
- **Business Process Optimization:** Analyzed end-to-end working capital and cash conversion cycles to identify operational bottlenecks and map optimized business workflows.
- **Valuation & Strategy:** Evaluated market metrics (EPS of PKR 393.18, P/E of 18.05x) and formulated data-backed policy changes for capital structure and revenue models.

Evaluation of the Internal Audit Function: Faysal Funds

Capstone Project | BS (Hons) Accountancy, Management & Law

- **Process Walkthroughs & Gap Analysis:** Performed end-to-end business process walkthroughs and gap analysis, identifying 7 critical compliance gaps and mapping operational workflows.
- **IT Controls & Data Integrity:** Evaluated IT General Controls (ITGC) and system workflows to assess data accuracy, access controls, and operational risks.
- **Solution, Delivery & Implementation:** Structured a 12-month implementation blueprint to address functional gaps and streamline reporting workflows.

Quantitative Portfolio Selection & CAPM Optimization Analysis

Financial Modelling Case Study

- **Statistical *Modelling*:** Calculated annualized returns, standard deviations, and correlation matrices for multiple equity assets using historical multi-decade data.
- **Frontier Optimization:** Constructed a 3-asset Efficient Frontier and Capital Market Line (CML) to determine the optimal tangency portfolio maximizing the Sharpe ratio.
- **CAPM Risk Pricing:** Computed individual stock Betas and Alphas to isolate systematic risk and design risk-tailored asset allocation strategies for clients.

Extracurricular Activities:

- **Vanquishers – Sports Society, IoBM** | **Director - Events** | Aug 2024 – Present
- **Football Team – IoBM |** August 2022 - Present
